Admission to Candidacy/Online Plan of Study: Students must apply for candidacy as soon as they are eligible. Students should prepare, in consultation with a graduate advisor, the online Plan of Study, i.e. the list of courses, for completing their degree requirements. All courses must be approved by the student's advisor.

A student is eligible to apply for candidacy/online plan of study when:

1. A minimum of 9 credit hours as a graduate student have been completed.
2. A minimum of 3.0 GPA in all courses attempted as a graduate student has been maintained.

Normally no more than 15 credit hours of work completed before submitting your Plan of Study will be accepted toward degree program.

Students working toward the MS (thesis option) degree may not register for thesis until their Plan of Study has been approved.

A MINIMUM OF AT LEAST 18 CREDITS OF 6000 LEVEL COURSES MUST BE TAKEN TO MEET PART OF THE REQUIREMENTS FOR THE DEGREE.

Other Requirements:

Thesis Option: No more than 3 credits of directed independent study may be applied toward the master's degree.

Non-Thesis Option: No more than 6 credits of directed independent study may be applied toward the master's degree.

Research Portfolio

1. All students must maintain a departmental online Research Portfolio, in which they place files such as MS Thesis copy, papers, technical reports, design-oriented homework assignments and likewise material. The Research Portfolio will be inspected by the Graduate Advisor before graduation.
2. Non-thesis students must take 3 credits of EEL 6905 Directed Independent Study, intended as a one semester mini-research project done under the guidance of one of the Engineering faculty. The research must produce, at the least, a technical report that should be placed in the student's online research portfolio.
